

CAPITAL DISTRICT  
TRANSPORTATION  
COMMITTEE

April XX, 2009

Dear Community Leader,

We invite you to participate in a **“Good to Go: Enhancing Senior Mobility in Your Community” conference**. This conference will highlight mobility concerns and bring together professionals to discuss best practices for issues about driving, transit and land use, and walkable communities. It will also provide an opportunity for attendees to help identify community needs and develop solutions to some of the most pressing issues facing older New Yorkers.

This conference is being co-sponsored by New York State Office for the Aging, AARP and the Capital District Transportation Committee. Experts on mobility will spend the day leading us through the process of identifying our most pressing community needs and turning them into a plan of action. We hope you can join us!

### **SAVE THE DATE!**
