

Program Overview

CDTC's Linkage Program provides integrated land use and transportation planning assistance to communities within the four counties of Albany, Rensselaer, Schenectady and Saratoga*. The Program implements the planning principles of CDTC's *New Visions 2040* regional transportation plan which states that the region's quality of life, mobility and economic vitality are dependent upon improved local land use planning and on better integration of land use and transportation decisions.

Linkage Program strategies seek to:

- Create a connected and integrated multi-modal transportation network
- Support urban revitalization and redevelopment of existing commercial/residential areas
- Enhance and develop activity centers and town centers
- Enhance and develop transit corridors and transit supportive built environments
- Encourage a greater mix and intensity of land uses in municipal centers
- Develop bicycle and pedestrian-friendly community and site design standards
- Reduce driveway conflicts through access management

Completed Study: Delaware Avenue Complete Streets, Bethlehem, NY (2017)

Eligible Applicants

Eligible applicants include towns, cities, villages and counties within CDTC's planning area of Albany, Rensselaer, Schenectady and Saratoga* Counties. Inter-municipal applications are encouraged.

Other applicants may include State agencies or non-governmental entities such as not-for-profits and public authorities with a letter of support from the municipality or municipalities in which the study is located.

Eligible Initiatives

The proposed initiative must be directly related to transportation, be directly related to an existing local plan and related to one of the following:

- Implementation activities related to completed Linkage Program plans or other completed local planning work (i.e. Comprehensive Plans, Waterfront Revitalization Plans, etc.)
- Updates of Linkage Program plans completed before 2010.
- New plans, particularly in communities that have not participated in the Linkage Program before. Priority will be given to:
 - complete streets guidelines/feasibility studies
 - strategic zoning code changes and/or site design guidelines
 - official mapping
 - bicycle/pedestrian planning
 - transportation planning activities (i.e. operational and safety studies)

*Except the Town of Moreau and the Village of South Glens Falls.

Completed Study: Clifton Park Town Center Form Based Development Code (2015)

Available Assistance

CDTC typically funds no more than three Linkage Program projects per federal fiscal year. A maximum of \$150,000 in federal planning funds have been reserved for consultant led efforts in 2019 with additional funds reserved for CDTC staff technical assistance.

The maximum total study cost including a required 25% cash match is \$90,000 (75% federal funds/25% local cash). CDTC may waive the local match requirement for small-scale CDTC staff (not consultant) assistance or in special circumstances.

CDTC is currently soliciting for projects for its 2019-2020 Linkage Program. The submission deadline is December 14, 2018. Visit www.cdtcmpo.org/linkage for additional information on the program and to learn how to apply.

Examples of Funded Studies

CDTC has funded 88 integrated transportation and land use planning studies since 2000 with sponsors representing 40 separate urban, suburban and rural municipalities, counties, not-for-profit groups and other public entities. Examples of completed Linkage Program planning initiatives include:

- **City of Albany Waterfront Bikeway Connection Feasibility Study** (\$70,000 consultant effort): Developed a preferred trail route option in the South End of Albany to connect the Albany County Rail Trail and the Mohawk-Hudson Bike-Hike Trail.
- **Town of Schodack Town Center Form Based Zoning** (\$45,000 consultant effort): Developed a new form-based zoning code to allow and encourage predictable types of redevelopment outlined in the Town Center Plan along 9/20 between exits 10 and 11 on I-90.
- **Town of Malta Route 9 Feasibility Study** (\$40,000 consultant effort): Evaluated the feasibility of redesigning Route 9 from its current highway style configuration to a complete street in the Town Center with a focus on the section from Cramer Road to Knabner Road.
- **City of Schenectady Gateway Plaza Implementation Plan** (\$70,000 consultant effort): Developed a conceptual re-design and expansion plan for Liberty Park at the corner of Washington Avenue and State Street and the area immediately surrounding it, including traffic configuration and landscaping plans.

What is the Capital District Transportation Committee?

The Capital District Transportation Committee (CDTC) is the designated Metropolitan Planning Organization (MPO) for Albany, Rensselaer, Saratoga and Schenectady Counties (*with the exception of the Town of Moreau and the Village of South Glens Falls).

Every metropolitan area in the United States with a population of more than 50,000 must have a designated MPO in order to qualify for Federal transportation funding. The function of the MPO is to provide a forum for state and local officials to discuss transportation issues and to develop an overall transportation plan for the region. The regional transportation plan for the Capital District is *New Visions 2040*.
