October 4, 2018

Dear Local Government Colleagues and Other Interested Parties:

The Capital District Transportation Committee (CDTC) is pleased to announce the availability of funding through its **Community and Transportation Linkage Planning Program for 2019-20** (April 2019 - March 2020). Program details are provided in the enclosed material and are also available on the CDTC website at [www.cdtmpo.org/linkage](http://www.cdtmpo.org/linkage).

The 2019-2020 Linkage Program will be focused on the following:

- Implementation activities related to completed Linkage Program plans or other completed local planning work (i.e. Comprehensive Plans, Waterfront Revitalization Plans, etc.).
- Updates of Linkage Program plans completed before 2010.
- New plans, particularly in communities that have not participated in the Linkage Program before, with additional priority being given to complete streets guidelines or feasibility studies, strategic zoning code changes/overlays and/or site design guidelines, official mapping, bicycle/pedestrian planning and traditional transportation planning activities such as safety and operational studies.

The proposed initiative must be directly related to transportation issues, be directly related to a recommendation from a community plan or policy and be consistent with the Linkage Program strategies. Inter-municipal initiatives are encouraged.

CDTC is proposing to fund no more than three Linkage Program projects in the 2019-2020 federal fiscal year. Up to \$150,000 of federal planning funds have been reserved to support consultant led efforts. The maximum request for consultant led efforts is \$90,000 with a minimum 25% local cash match (75% federal/25% local cash).

In order for CDTC to sort through proposals and develop funding options for CDTC's February Planning Committee meeting, the proposal deadline has been set for the close of business on Friday, December 14, 2018.

If you have any questions, please call Sandy Misiewicz of the CDTC staff at 458-2161.
