

Draft New Visions 2050 Plan

Kids Activity Workbook

Directions: Kids live in and explore the Capital Region! They use the transportation system every day and observe what's going on around them. Their voice is important and one day they will help decide how the region invests and builds its infrastructure.

Use this workbook to keep the kids busy while you host your community meeting. Submit the finished workbooks (or copies or photos of them) when they're done. If it's okay with them, we'd love to share their artwork and thoughts on their communities with others.

Draw a picture of your favorite place to visit in your community:

Find where you live on the map and circle or color it:

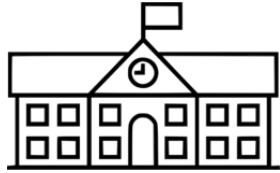

Listen to the sounds in your community. Make a list of the loudest and quietest things in your town.

Loudest

Quietest

Where things are from near to far

Circle “near” or “far” next to each place in your community or other place you like to visit

Create your community: make this bus stop fun and colorful!

Create your community: there are lots of different kinds of places to live in the Capital Region

Create your community: add the things you think might be missing like people, vehicles, and things to display in the shop windows!

Color or circle the things you see using the sidewalks and roads in your community every day:
