RE: NYSDOT PIN 1528.90 PAVEMENT RESURFACING I-90 FROM CORPORATE WOODS TO I-787 (CITY OF ALBANY, ALBANY COUNTY)

Dear Ms. Misiewicz:

We are submitting the proposed amendment to the 2022-2027 Transportation Council TIP for consideration by the Planning Committee at its next scheduled meeting.

TIP PROJECT NUMBER: A618:

The amendment is proposed due to the following:

- ☐ Scope Change
- X** **Cost Change**
- ☐ Schedule Change
- ☐ New Project

PROVIDE EXPLANATION FOR CHANGE:

There are two cost changes. The first is to decrease the overall Construction and Construction Inspection funding. While designing the project, it became clear that minimal guide rail work was required. As a result, the C and CI costs decreased.

The second cost change is due to the issuance of an Engineering Instruction requiring the use of improved pavement markings on urban principal arterial interstates as a countermeasure to address lane departure crashes. These markings are epoxy paint with grooved-in wet-night reflective beads. The first application of this type of marking can utilize HSIP funding which is statewide initiative and therefore does not against regional core planning targets.
