Amendments to the 2016-21 TIP

At its November 7, 2018 meeting, the CDTC Planning Committee recommended the following amendment to the Transportation Improvement Program (TIP).

1. R195, 1754.59, South Troy Industrial Park Road

Due to complications regarding right-of-way acquisition, the northern half of this project is being delayed. Splitting the project into a northern section (with construction in 2019-20) and a southern section, allows construction of the southern section to begin this FFY. The funding for both phases sums to the total of the original project. As part of the amendment, funding for the projects are capped in total and any funding changes to either project require at least Planning Committee action. Funding shown prior to the 2018-19 FFY is what was actually obligated. Project limits and descriptions are as follows:

R195, South Troy Industrial Park Road Phase I (Southern End)

Improve existing East Industrial Parkway from Main Street/ Burden Avenue (US 4) to northern terminus and construct a new two-lane road from there to Monroe Street, including sidewalks and bike lanes.

R195A, South Troy Industrial Park Road Phase II (Northern End)

Construct a new two-lane road from Monroe Street to Adams Street, including sidewalks, bike lanes a new bridge over the Poestenkill.
