

ALBANY EDUCATION DISTRICT ENHANCEMENT STUDY

Total Study Cost: \$95,000 consultant effort

Description: CDTC is assisting the study sponsors with a consultant study to create a redevelopment plan for the area known as the Albany Education District. This effort evolved out of the 2005 Midtown Colleges and University District Plan. The Study area is roughly bounded by South Main Avenue, Sherman Street, Englewood Place and Park Avenue, an area that includes Albany High School, The College of St. Rose, and the UAlbany Downtown Campus. The purpose of the plan is to identify transportation/land use projects and design standards to develop a safe and welcoming network of connections between transportation modes, commercial destinations, residences, places of work and schools. The ultimate goal is to stabilize, enhance and revitalize this important section of the City.

This study is currently in progress.

Sponsors: CDTC, City of Albany, the College of St. Rose and the University at Albany

Consultant: Not Selected yet.
