

**Proposed Revisions to the Draft Public Transit Human Services Transportation
Coordinated Plan (1/2015 Version)**

- 1) **Page 4:** Revised the Transit principle included in the draft coordinated plan to be consistent with the one included in the New Visions Draft document of May 2015.
- 2) **Page 7:** Revised wording on public participation to reflect modifications made to the original process laid out in the January draft of the Coordinated Plan. The process followed included seven New Visions 2040 public meetings around the region (each county), and a survey during the late winter/spring of 2015.
- 3) **Page 54:** Updated the human service agencies listing with more hyperlinks to agency/organization websites and alphabetized the information.
- 4) **Pages 91 - 93:** Included a section describing the recent 5310 project solicitation and selection process and results. Each selected project was listed individually as required by FTA/MAP 21. (This process involved two new state agencies in the 5310 rating and ranking committee; it is hoped that new avenues and opportunities for communication and coordination will be available in the future as a result.)
- 5) **Page 97:** Added information on the recently formed CDTC ADA Working Group.
- 6) **Page 98:** Added a section on the federal Ladders of Opportunity initiative (a federal planning emphasis area) in response to a citizen comment and NYSDOT's Unified Planning Work Program (UPWP) call letter which provides guidance on recommended planning activities.
- 7) Generally updated text throughout the document to remove the word "draft" (except in the header which will be updated once the final plan is adopted by the Policy Board) and other wording changes so the July 28, 2015 can be adopted as the final version (pending any additional changes due to Planning Committee and/or public comment received during August).
