

**Proposed Scope Change to T6A & T89  
(Elderly and Handicapped Vehicles)**

TIP projects T6A & T89 (Elderly and Handicapped Vehicles) are where CDTC programs federal Section 5310 funds in the Albany-Schenectady-Troy area and in Saratoga Springs, respectively. Prior to MAP-21, these funds, as solicited for and administered by NYSDOT, were for vehicles for the elderly and handicapped, as indicated by the project titles. Map-21 expands the eligibility for these funds to include such things as mobility management and other capital projects that improve access and mobility for seniors and individuals with disabilities, and operating and administrative costs.

Therefore, in order to accommodate the new eligibility, CDTC Staff is proposing to change the titles of these two projects from

*"Elderly and Handicapped Vehicles*

*Section 5310 Vehicles for Elderly and Handicapped Transportation  
by Private Not-For-Profit Agencies"*

to

*"Enhanced Mobility of Seniors and Individuals with Disabilities  
Program*

Section 5310 mobility management and other capital projects, including vehicles, that improve access and mobility for seniors and individuals with disabilities. Operating and administrative costs are also eligible under this program.

CDTC Staff considers this a scope change, requiring Planning Committee approval. There is no change to the funding.
