

**2009 Economic Stimulus Program
Proposed Additional Amendment Language**

The proposed amendment is contingent upon approval by Congress of ESP funds. If funding is not approved, or if certain projects are deemed ineligible for the new funding based on the final legislation, then projects already shown on CDTC's 2007-12 Transportation Improvement Program should revert to their previous status on the TIP; and projects that are not currently shown on the 2007-12 TIP should not gain TIP status without ESP funding.
