

**Amendments to the 2013-18 TIP**

At its November 6, 2013 meeting, the CDTC Planning Committee recommended the following amendment to the Transportation Improvement Program (TIP).

**1. SA277 (1SB9.05): Mohawk Towpath National Scenic Byway,  
Improved Recreational Access to the Vischer Ferry Nature and  
Historic Preserve**

This project will provide greater recreational access to the six hundred acre Vischer Ferry Nature and Historic Preserve. The improvements will include a bridge between the Clutes Dry Dock and historic community site across the 1842 Enlarged Erie Canal waters to the Towpath Trail on the abutments of a former farmers bridge. The project will also include stabilization and reconstruction of a historic bridge abutment at the end of Ferry Drive. These are key access points and trail heads to the Vischer Ferry Preserve and closest access to historic Lock 19 on the 1842 Enlarged Erie Canal and one of the few remaining watered sections of the 1825 Erie Canal.
