

Amendments to the 2010-15 TIP

At its June 6, 2013 meeting, CDTC made the following amendments to the Transportation Improvement Program (TIP). All amendments shown below will be incorporated into the 2013-18 TIP, which was adopted at the same meeting.

1. Safe Routes to Schools

The New York State Department of Transportation (NYSDOT) chose projects to be funded under this program from a list of candidates from around the State. Those in the CDTC area require MPO approval for inclusion in the TIP, and some are of high enough cost that they require Policy Board approval. The fund source is "Safe Routes to Schools" and is 100% federal (no local or state match required). The fund source "Local" shown in some projects below is not match.
