

Amendments to the 2010-15 TIP

At its October 5, 2011 meeting, the CDTC Planning Committee made the following amendments to the Transportation Improvement Program.

1. R196 (1754.68), CR 111 (Pitts-Johns Road) Bridge over the Hoosick River, Bridge Restoration

Various factors have contributed to a higher construction estimate. The increase is mostly offset by a reduction in cost to project R241 (1755.31) as noted below.

2. R241 (1755.31), CR 49 (Eastern Union Turnpike) over Wynantskill Creek: Bridge Replacement

A more economical construction option has been selected for this project, resulting in a lower construction cost estimate. The decrease will mostly offset the increase in cost to R196 (1754.68) as noted above.

3. Deferral of Engineering Phases of Projects Added in 2010-15 Update

Since it now appears that federal funding will be lower than anticipated during the 2010-15 TIP Update, the Planning

Committee is deferring all engineering funds (and therefore, all right-of-way funds) for projects added via the 2010-15 TIP Update project solicitation until the fourth year of the TIP (2013-14). This action is meant to help insure federal funding is available to complete all phases of those projects in a timely manner. There are \$4.590M of these funds in 2011-12 and \$4.340M in 2012-13, in STP-Flex, NHS and Safety fund sources. The list of affected projects is below.
