

Amendments to the 2010-15 TIP

At its December 1, 2011 meeting, CDTC made the following amendments to the Transportation Improvement Program.

1. T17 (1820.48), Transit Bus Replacement/Expansion

CDTA recently was approved by the FTA for competitive Section 5309 funds for State of Good Repair projects for this project. Also included in this amendment is the removal of Demonstration (Discretionary) funds from the TIP because they were obligated prior to the time periods shown in the TIP. Because of the excessive number of phases in this project, for brevity and clarity, only the affected phases are shown below.

<u>TIP Project</u>	<u>Phase</u>	<u>Fund Source</u>	<u>Year</u>	<u>Previous Amount</u>	<u>New Amount</u>
T17, Transit Bus	V	Demo	08-10	\$0.891M	\$0.000M

Expansion	V	Sec 5309	12-13	---	5.000

2. T70 (cdtc.13), NY 5 Bus Rapid Transit (BRT) Stations

CDTA recently was approved by the FTA for competitive Section 5309 funds from the Livability Program for this project. The funds shown as Demonstration (Discretionary) in the current listing were programmed by CDTC as a requirement for consideration of these Discretionary funds. Therefore, the Section 5309 funds replace the Demo funds. With these new funds, the project is fully funded.
