The City of Albany is developing a City-wide Complete Streets Policy and Design Manual. Complete streets are streets that can accommodate all users including pedestrians, motorists, bicyclists and transit riders.

Join us to provide your input on sidewalks, bus stops, bike lanes, crosswalks and more in your neighborhood and around the City!

The open house event will take place 5:00 PM – 7:30 PM. A presentation about the project will take place at 6:00 PM.
