

Village of Scotia Downtown Connections Study

VIRTUAL PUBLIC WORKSHOP #1

Thursday, August 12, 2021

5:30 - 7:00 PM, via Zoom

The Village of Scotia is seeking to improve the pedestrian, bicycle, and transit experience in the Village's Central Business District along Mohawk Avenue (NY Route 5). This corridor is an important commuter and freight connection through the Village, providing connections to NY Route 50 (Ballston Ave) and NY Route 147 (Sacandaga Road), from the Western Gateway Bridge and points west. The Village wishes to preserve the quick and efficient movement of commuters and freight through the village while enhancing the safety, accessibility, and enjoyment of the area for pedestrians, bicyclists and public transportation users. The purpose of this meeting is to provide the public an opportunity to share their experiences within the corridor.
