

**Capital District Transportation Committee
2019-24 TIP Update
Second List of Changes to Draft 2019-24 TIP Project Listings**

The below changes have been made to the TIP project listings for public review on April 4, 2019. These were considered by CDTC staff to be too minor to require Planning Committee action or would not require Planning Committee action according to the Guidelines for TIP Amendments if this were not a TIP Update. So no approval is sought. However, the Planning Committee can always override such changes. The changes are documented below:

- 1) SA313, 1761.20, Hans Creek Rd over Hans Creek, Bridge Repair or Replacement: The C phase of \$0.610M of STPOffNY funds were moved from FFY 19-20 to FFY 20-21.
