RE: King Road Bridge over Amtrak/CSX (PIN 1758.95) – Supplemental Construction Funding

Dear Ms. Misiewicz:

The City of Schenectady is submitting the proposed amendment to the 2022-2027 CDTC TIP for consideration by the Planning Committee at its next scheduled meeting.

TIP PROJECT NUMBER: S204

The amendment is proposed due to the following:

- Scope Change
- Cost Change**
- Schedule Change
- New Project
- Other

PROVIDE EXPLANATION FOR CHANGE:

The Kings Road Bridge project was added to the 2016-2021 TIP in 2015 as a bridge replacement of the existing structure over CSX/Amtrak. Upon the completion of preliminary design of the bridge and a public hearing it was recommended to expand the shoulders of the bridge to accommodate bicycles. A TIP Amendment was approved by the Planning Committee to increase funding as required.

Original TIP Budget for Construction (2015) - \$3.82M
Increased Construction Budget via TIP Amendment (February, 2019) - \$5.32M

Currently, the Kings Road Bridge replacement project has been reviewed and approved by Amtrak and the NSYDOT. Right-of-way acquisitions and projections have also been completed. The project is scheduled to be let in mid-February of this calendar year. A new PS&E has been provided to the City from the consultant in today's dollars. This estimate includes third party Construction and Steel fabrication inspection as well as Construction Support from Amtrak for their flagging services (\$369k). The required funding needed to move forward with the project is now \$7.404M. The City would like to request a TIP amendment for the

necessary additional funding of \$1.951M for the project. This request includes a savings of \$0.062M from the consolidation and/or reduction of Design and Right-of-Way acquisition funds from the previous Federal Fiscal Year.
