

New Visions Virtual Learning

CDTC Complete Streets Summer Series

As part of the New Visions 2050 Virtual Learning Series, CDTC is working with a consultant team led by Planning4Places, in partnership with Sam Schwartz Engineering, to develop a 3-part virtual Complete Streets Workshop. Details on each workshop and registration information can be found at <https://www.cdcmpo.org/news/nv-webinars>.

Tuesday, June 15 at 3:30 - 5:00 pm: Obstacles to Implementing Complete Streets

What are common issues communities are facing implementing Complete Streets in the Capital region? Why are retrofits so difficult? And what are the costs?

Tuesday, July 13 at 3:30 - 5:00 pm: Complete Streets Demonstration Projects

Examples from across the region and beyond that help you understand what you can do and how? How effective are demonstration and pilot projects in creating long-term and permanent changes?

Tuesday, August 17 at 3:30 - 5:00 pm: Open Streets

What are Open streets and why are cities and towns around New York and across the country doing them? Will they work in your community? Why are changes to streets and the built environment created by COVID and social distancing guidelines, likely here to stay?

Panelists:

CDTC Staff: Jen Ceponis, Carrie Ward, & Chris Bauer

Planning 4 Places: Jim Levy & Katherine Ember

Sam Schwartz Engineering: Mike Flynn

CDTC has submitted a request to the American Planning Association New York Upstate Chapter for AICP Certification Maintenance (CM) credits. If approved, participants will be eligible to receive 1 CM per workshop. Check the New Visions Virtual Learning Series webpage for updates and information on how to receive CM credits.
