2022-2023 Unified Planning Work Program (UPWP) Amendment

Revised Federal Transit Administration (FTA) Federal Fiscal Year 2022 Section 5303 Metropolitan Planning Program (MPP) apportionment

CDTC approved the fiscal year 2022-2023 UPWP in March 2022. On April 6, 2022, the Federal Transit Administration (FTA) posted the Federal Fiscal Year 2022 Section 5303 Metropolitan Planning Program (MPP) full year apportionments. The New York State Department of Transportation revised previously distributed allocations for this fund source to reflect an increase resulting from enactment of the Bipartisan Infrastructure Law. CDTC was allocated an additional \$106,767 to be obligated in the 2022-2023 UPWP.

The following table identifies planning task lines for which FHWA PL & FTA MPP funds are being adjusted to account for the additional funds CDTC will expend in fiscal year 2022-2023.
